## Fixed Issues

### List Ingestion Utility Fix

(CDQE-71725) **List Ingestion Utility** not initializing on Spectrum™ Technology Platform version **2018.2**.

The patch **S02** fixes this issue.

## Installation

To install this product update you must have Spectrum™ Technology Platform 2018.2 installed with all **Screeener** pre-requisites.

**Important:** Before you install this product update, be sure that you have installed all previously-released product updates for your modules and the platform. Unexpected issues may occur if you do not install product updates in the proper order. For a listing of product updates for each module and the platform, see the [Product Update Summary](https://support.pb.com/spectrum) on [support.pb.com/spectrum](https://support.pb.com/spectrum).

### Installing on Windows

**Note:** In this procedure, *SpectrumLocation* refers to the folder where you have installed the Spectrum™ Technology Platform server.

1. Stop the `listIngestionUtility`.
2. Download the `*.zip` file containing the patch from the **Pitney Bowes eStore**.
3. Extract the contents of the `*.zip` file to a temporary location.
4. Extract the resulting `*.zip` file (`cdq20182s02.zip`) to the folder where you installed Spectrum. For example:  

```
C:\Program Files\Pitney Bowes\Spectrum
```

Choose to overwrite the existing files.
5. Overwrite the artifacts (`fcc.jar`) of *ListIngestionUtility* as you have already copied it to another location from where you will run the utility.

6. Run the *List ingestion utility* following the steps specified in the Spectrum™ Technology Platform **FCC Screening Solution** user guide.

## Installing on Unix or Linux

**Note:** In this procedure, *SpectrumLocation* refers to the directory where you have installed the Spectrum™ Technology Platform server.

1. Stop the `ListIngestionUtility`.
2. Download the `*.zip` file containing the patch from the **Pitney Bowes eStore** and extract the contents to a temporary location.
3. FTP the `cdq20182s02.tar` file in binary mode to a temporary directory on the Spectrum™ Technology Platform machine.
4. Change directory to the `$G1DCG` directory.
5. Untar the file using this command:  

```
tar -xvf TemporaryDirectory/cdq20182s02.tar
```
6. Overwrite the artifacts (`fcc.jar`) of *ListIngestionUtility* as you have already copied it to another location from where you will run the utility.
7. Run the *List ingestion utility* following the steps specified in the Spectrum™ Technology Platform **FCC Screening Solution** user guide.
