

Spectrum™ Technology Platform

Version 2018.2 S07

Release Notes

This document contains information about Spectrum™ Technology Platform 2018.2 S07 update. You have access only to the modules you have licensed. To evaluate any other modules, contact your Pitney Bowes account executive for a trial license key.

Who should apply this update? This product update is intended for the users of Spectrum™ Technology Platform 2018.2 Enterprise Routing Module.

Is this update mandatory? Yes.

Contents:

Fixed Issue	2
Installation	2

Fixed Issue

This release contains the following bug fix:

Route Stage Fix

(ROUT-6119) In the Settings tab of the `GetRoute` stage, when the user clicked **Ok** and then reopened the **Settings** tab, the **OptimizeBy** setting would change from **Time** to **Distance**. The same has been fixed.

Installation

To install this product update you must have Spectrum™ Technology Platform 18.2 installed.

Important: Before you install this product update, be sure that you have installed all previously-released product updates for your modules and the platform. Unexpected issues may occur if you do not install product updates in the proper order. For a listing of product updates for each module and the platform, see the [Product Update Summary](https://support.pb.com/spectrum) on support.pb.com/spectrum.

Installing on Unix or Linux

Note: In this procedure, *SpectrumDirectory* refers to the directory where you have installed the Spectrum™ Technology Platform server.

1. Source the `SpectrumDirectory/server/bin/setup` script.
2. Execute the `SpectrumDirectory/server/bin/server.stop` script to shut down the Spectrum™ Technology Platform server.
3. Back up the following directory to a different location:

```
SpectrumDirectory/server/app/deploy/
```

4. Download the ZIP file containing the patch from the Pitney Bowes eStore. The product update announcement includes a link to download the software and Release Notes.
5. Extract the contents of the ZIP file to a temporary location.
6. Change to the directory to the **\$G1DCG** directory.

7. Extract the resulting TAR (`cdq20182s07.tar`) file using this command to the *SpectrumDirectory*:

```
tar -xvf TemporaryDirectory/cdq20182s07.tar
```
8. Execute the *SpectrumDirectory/server/bin/server.start* script to start the Spectrum™ Technology Platform server.

Installing on Windows

Note: In this procedure, *SpectrumFolder* refers to the folder where you have installed the Spectrum™ Technology Platform server.

1. Stop the Spectrum™ Technology Platform server. To stop the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Stop Spectrum™**. Alternatively, you can use the Windows Services Control Panel and stop the Pitney Bowes Spectrum™ Technology Platform service.
2. Back up the following folder to a different location:

```
SpectrumFolder\server\app\deploy\
```

3. Download the ZIP file containing the patch from the Pitney Bowes eStore. The product update announcement includes a link to download the software and Release Notes.
4. Extract the contents of the ZIP file to a temporary location.
5. Extract the resulting zip file (`cdq20182s07.zip`) to the folder where you installed Spectrum. For example, `C:\Program Files\Pitney Bowes\Spectrum`.

Choose to overwrite the existing files.

6. Start the Spectrum™ Technology Platform server. To start the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Start Spectrum™**. Alternatively, you can use the Windows Services Control Panel to start the Pitney Bowes Spectrum™ Technology Platform service.
