Installation	2

Fixed Issues

Issues in configuration of *UAM International Database*

(CDQE-73271) Unable to configure *UAM International database* on Spectrum™ Technology Platform 2018.2 windows server.

The product update S08 fixes this issue.

Installation

To install this product update you must have Spectrum™ Technology Platform 2018.2 installed.

Applying This Product Update to a Cluster

To apply this product update to a cluster, install the product update to each node by following the instructions in these release notes. You can apply the product update to one node at a time without stopping all the nodes in the cluster.

Note: In addition to the steps mentioned below, after applying the patch (car and war files); you must clear the browser cache to avoid any conflict with the latest patch changes.

Installing on Windows

Note: In this procedure, *SpectrumLocation* refers to the folder where you have installed the Spectrum™ Technology Platform server.

1. Stop the Spectrum™ Technology Platform server. To stop the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Stop Spectrum™**. Alternatively, you can use the Windows Services Control Panel and stop the Pitney Bowes Spectrum™ Technology Platform service.
2. Back up this file to a different location:

```
<SpectrumLocation>\server\modules\icp\lib\iciapi.dll
```

3. Download the zip file containing the patch.
4. Extract the contents of the zip file to a temporary location.
5. Extract the resulting zip file (cdq20182S08.zip) to the folder where you installed Spectrum. For example, C:\Program Files\Pitney Bowes\Spectrum.

Choose to overwrite the existing files.

6. Start the Spectrum™ Technology Platform server. To start the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Start Spectrum™**. Alternatively, you can use the Windows Services Control Panel to start the Pitney Bowes Spectrum™ Technology Platform service.
