Fixed Issues	2
Installation	2

Fixed Issues

This release fixes:

- (MID-46386) Spatial Manager displays a "LIM license has expired" message after installing a perpetual license key.

Installation

To install this product update you must have Spectrum™ Technology Platform release 2018.2 installed.

Important: Before you install this product update, be sure that you have installed all previously released product updates for your modules and the platform. Unexpected issues may occur if you do not install product updates in the proper order. For a listing of product updates for each module and the platform, see the [Product Update Summary](#) on support.pb.com/spectrum.

Applying This Product Update to a Cluster

To apply this product update to a cluster, install the product update to each node by following the instructions in these release notes. You can apply the product update to one node at a time without stopping all the nodes in the cluster.

Installing on Windows

Note: In this procedure, *SpectrumFolder* refers to the folder where you have installed the Spectrum™ Technology Platform server.

1. Stop the Spectrum™ Technology Platform server.
 - To stop the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Stop Spectrum™**.
 - Alternatively, you can use the Windows Services control panel and stop the **Pitney Bowes Spectrum™ Technology Platform** service.
2. Back up the following to a different location:
 - *SpectrumFolder\server\app\deploy\SpatialServerManager.war*

3. Download the ZIP file containing the patch. The product update announcement includes a link to download the software and Release Notes.
4. Extract the contents of the zip file to a temporary location.
5. Extract the resulting zip file (`cdq20182s17.zip`) to the *SpectrumFolder* where you installed Spectrum. For example, the default location is `C:\Program Files\Pitney Bowes\Spectrum`.

Choose to overwrite the existing files.

6. Start the Spectrum™ Technology Platform server.
 - To start the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Start Spectrum™**.
 - Alternatively, you can use the Windows Services control panel to start the **Pitney Bowes Spectrum™ Technology Platform** service.

The amount of time it takes to restart the Spectrum™ Technology Platform server will depend on your installation.

Installing on Unix or Linux

Note: In this procedure, *SpectrumDirectory* refers to the directory where you have installed the Spectrum™ Technology Platform server.

1. Source the `SpectrumDirectory/server/bin/setup` script.
2. Run the `SpectrumDirectory/server/bin/server.stop` script to stop the Spectrum™ Technology Platform server.
3. Back up the following to a different location:
 - `SpectrumFolder/server/app/deploy/SpatialServerManager.war`
4. Download the *.zip file containing the patch. The product update announcement includes a link to download the software and Release Notes.
5. Extract the contents of the *.zip file to a temporary location.
6. FTP the `cdq20182s17.tar` file in binary mode to a temporary directory on the Spectrum™ Technology Platform machine.
7. Change to the directory where Spectrum™ Technology Platform is installed.
8. Untar the file using this command:

```
tar -xvf TemporaryDirectory/cdq20182s17.tar
```
9. Run the `SpectrumDirectory/server/bin/server.start` script to start the Spectrum™ Technology Platform server.

The amount of time it takes to restart the Spectrum™ Technology Platform server will depend on your installation.
