What's New	2
Installation	2

What's New

CASS Cycle N License Extended to August 1, 2021

(CDQE-81181) Validate Address will now run in CASS-certified mode for Cycle N until August 1, 2021.

Installation

To install this product update you must have Spectrum™ Technology Platform release 2018.2 installed.

Important: Before you install this product update, be sure that you have installed all previously-released product updates for your modules and the platform. Unexpected issues may occur if you do not install product updates in the proper order. For a listing of product updates for each module and the platform, see the [Product Update Summary](#) on support.pb.com/spectrum.

Applying this product update to a cluster

To apply this product update to a cluster, install the product update to each node by following the instructions in these release notes. You can apply the product update to one node at a time without stopping all the nodes in the cluster.

Installing on Windows

Note: In this procedure, *SpectrumLocation* refers to the folder where you have installed the Spectrum™ Technology Platform server.

1. Stop the Spectrum™ Technology Platform server. To stop the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Stop Spectrum™**. Alternatively, you can use the Windows Services Control Panel and stop the Pitney Bowes Spectrum™ Technology Platform service.
2. Back up this file to a different location:

```
SpectrumDirectory\server\modules\clp\lib\C1PCKDBX.acu
```

3. Download the *.zip* file containing the patch.
4. Extract the contents of the zip file to a temporary location.
5. Extract the resulting zip file (*cdq20182s41.zip*) to the folder where you installed Spectrum. For example, *C:\Program Files\Pitney Bowes\Spectrum*.

Choose to overwrite the existing files.

6. Start the Spectrum™ Technology Platform server. To start the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Start Spectrum™**. Alternatively, you can use the Windows Services Control Panel to start the Pitney Bowes Spectrum™ Technology Platform service.

Installing on Unix or Linux

In this procedure, *SpectrumLocation* refers to the directory where you have installed the Spectrum™ Technology Platform server.

1. Source the *SpectrumLocation/server/bin/setup* script.
2. Back up this file and folder to a different location:

```
SpectrumDirectory\server\modules\clp\lib\C1PCKDBX.acu
```

3. Run the *SpectrumLocation/server/bin/server.stop* script to stop the Spectrum™ Technology Platform server.
4. Download the zip file containing the patch, and extract the contents to a temporary location.
5. FTP the *cdq20182s41.tar* file in binary mode to a temporary directory on the Spectrum™ Technology Platform machine.
6. Untar the file using this command:

```
tar -xvf TemporaryDirectory/cdq20182s41.tar
```
7. Run the *SpectrumLocation/server/bin/server.start* script to start the Spectrum™ Technology Platform server.
