## Installation

Spectrum Spatial Analyst requires that the Spectrum Spatial Module is installed and licensed with the Spectrum Technology Platform. Before you install this product update, ensure that you have installed all previously released product updates for the Spectrum Spatial module and the platform.

To install this Spectrum Spatial Analyst patch, follow the steps provided below.

### Installing on Windows

**Note:** In the following steps, **install\_directory** is the directory where the Spectrum Spatial Analyst application is installed.

1. Download the zip file and extract it to your system.
2. Stop the AnalystConnect Tomcat service.

3. Backup the existing `connect.war` file from your Spectrum Spatial Analyst installation located under:  
`<install_directory>\Tomcat\AnalystConnect\webapps`
4. Delete the `connect.war` file located at:  
`<install_directory>\Tomcat\AnalystConnect\webapps`
5. Copy the latest `connect.war` file (from the Spectrum Spatial Analyst patch zip) to the following folder:  
`<install_directory>\Tomcat\AnalystConnect\webapps`
6. Start the Precisely AnalystConnect Tomcat service.

## Installing on Linux

**Note:** In the following steps, **install\_directory** is the directory where the Spectrum Spatial Analyst application is installed.

1. Download the zip file and extract it to your system.
2. Stop Analyst Connect.
3. Backup the existing `connect.war` file from your Spectrum Spatial Analyst installation located under:  
`<install_directory>/analyst/connect/webapps`
4. Delete the `connect.war` file located at:  
`<install_directory>/analyst/connect/webapps`
5. Copy the latest `connect.war` file (from the Spectrum Spatial Analyst patch zip) to the following folder:  
`<install_directory>/analyst/connect/webapps`
6. Start Analyst Connect.
