This document contains information about Spectrum Spatial Analyst 2023.1.0 S06 patch release.

Who should apply this update?	This product update is for users of the Spectrum Spatial Analyst application.
Is this update required?	This product update is mandatory for Spectrum Spatial Analyst users only.

Contents:

Fixed Issues

This release fixes the following issues:

Bug ID	Description
SSS-21237	Spectrum Spatial Analyst 2023.1 stopped responding and displayed a white map when loading a map project that referenced ntv2.gsb grid file. The file is used for co-ordinate transforms to and from British National Grid. In some cases, the map project was being processed before the file was fully loaded. **Resolution** - Fixed.
SSS-21619	Support Digest authentication for an External WMS **Resolution** - Fixed.

Installation

Spectrum Spatial Analyst requires that the Spectrum Spatial Module is installed and licensed with the Spectrum Technology Platform. Before you install this product update, ensure that you have installed all previously released product updates for the Spectrum Spatial module and the platform.

To install this Spectrum Spatial Analyst patch, follow the steps provided below.

Installing on Windows

> **Note:** In the following steps, **install_directory** is the directory where the Spectrum Spatial Analyst application is installed.

1. Download the zip file and extract it to your system.
2. Stop the AnalystConnect Tomcat service.
3. Backup the existing `connect.war` file from your Spectrum Spatial Analyst installation located under:

`<install_directory>\Tomcat\AnalystConnect\webapps`

4. Delete the `connect.war` file located at:

   `<install_directory>\Tomcat\AnalystConnect\webapps`

5. Copy the latest `connect.war` file (from the Spectrum Spatial Analyst patch zip) to the following folder:

   `<install_directory>\Tomcat\AnalystConnect\webapps`

6. Start the Precisely AnalystConnect Tomcat service.

Installing on Linux

> **Note:** In the following steps, **install_directory** is the directory where the Spectrum Spatial Analyst application is installed.

1. Download the zip file and extract it to your system.
2. Stop Analyst Connect.
3. Backup the existing `connect.war` file from your Spectrum Spatial Analyst installation located under:

   `<install_directory>/analyst/connect/webapps`

4. Delete the `connect.war` file located at:

   `<install_directory>/analyst/connect/webapps`

5. Copy the latest `connect.war` file (from the Spectrum Spatial Analyst patch zip) to the following folder:

   `<install_directory>/analyst/connect/webapps`

6. Start Analyst Connect.
